Pass to Get Complete Hardsurfaced Highway in 1946

All In Readiness For Carnival On Saturday And Monday; Good Prizes; Large Crowds Anticipated

Large Gangs of Men Have Been Busy Nightly Constructing Booths; Major Prize of Trip to Victoria Proving Popular.

It is surprising how many persons are pinning their hopes of winning the major carnival prize of two return tickets to Victoria via Trans Canada Air Lines plus \$125 in cash in order to enjoy a really wonderful vacation this summer. Since there are two tickets at least two of those persons are going to be made supremely happy, while the others are doomed to disappointment. However, the more tickets purchased the greater your chances are increased in making your hopes come true.

The prize has proved very popular with the public and L. S. Richards, ticket sales chairman, reports that sales have been very encouraging.

During the past week gangs of men have been working at the arena constructing booths, making the dance floor ready and getting

things ready in general. The booth prizes are now on the way and should arrive here tomorrow morning.

As a result of the announcement last week that \$12.50 chenille bedspreads would be given as prizes each hour at the bingo booth, interest has risen in this grand old game. In addition a determined effort is still being made to get some silk stockings on this particular booth.

There will be many booths, such as blanket, ham, bacon, lamp, doll, stuffed animal, etc. The grade of prizes is expected to be boosted this year.

The dance floor has been improved and dancing will be enjoyed to the music of Canadian's orchestra.

No time and effort has been spared to make the carnival a huge success and both sponsoring organizations, Coleman Curlers and Elks, anticipate heavy attendances each evening.

ELKS' LODGE INSTALLS THREE NEW MEMBERS

Coleman Elks' Lodge held its regular meeting on Friday, June 22, when at time three new members, Doug Moores, Vic. Liliya and Joe Sygutek, were installed.

After installation refreshments were served and a social evening spent. Mack Stigler gave a short address of welcome to the new members, which was ably responded to by the newcomers. Piano solos were rendered by Bert Bont and Doug Moores, songs by W. Jenkins and Bid Clark, and sketches and short stories by Joe Jenkins, Ronald Fyfe and Steve Brodie.

MRS. MURDOCH SR. HONORED BY REBEKAHS

Victoria Rebekahs closed for the summer recess on Tuesday, June 19, following its regular meeting. At the close of the business session a social evening was held, whilst being played with Mrs. W. Nelson winning the prize for the highest score. Following whilst a dairy luncheon was served.

Mrs. T. Higginbotham, on behalf of the members, honored Mrs. Murdoch sr. with a gift as an appreciation of the lodge members for her services as pianist. In receiving the gift Mrs. Murdoch voiced her thanks for the members' kindness.

AMATEUR BOXING CARD AT BLAIRMORE ARENA SATURDAY, JUNE 30

Blairmore Lions club is sponsoring a boxing show to be staged in the Blairmore arena on Saturday, June 30, at 8 p.m.

There will be twelve bouts, each three 3-minute rounds. The boxers hail from Pincher Creek, where they have been trained by the Pincher Creek Athletic Association.

It is many years, in fact not since the days of the Frank Barrington boxing shows, has a boxing card been staged in the Pass and it is expected that a good holiday crowd will attend the show.

WARNING

Provincial Gravel Pit in the N. E. 4 Section 11-8-45 has been turned over to the Town of Coleman by the Public Works Department for use ONLY in the Town of Coleman.

Any person taking gravel out of this pit will be prosecuted.

COLEMAN TOWN COUNCIL
 G. Lees, Sec.-Treas.

W.M. NAYLOR, DFC

STOKER JOE DELUCA

is on his way home and is expected at any moment to reach Coleman. He left Halifax a few days ago and despite the fact that his parents, Mr. and Mrs. O. Bomben, have waited patiently at the station for him during the past couple of mornings, Joe has so far failed to put in his appearance. He has served overseas during the past two years.

Sports Assoc. to Sponsor Sports July 1 And 2

Play Off Softball Games to Semis-Finals on Sunday; Semis and Finals to be Played Mon.

Coleman Sports Association will sponsor its third annual July 1 sports day next Monday in order that all Coleman children might have the opportunity of spending a pleasant holiday by entering into the various sport competitions for prizes and receiving refreshments entirely free.

Since July 1 is a Sunday, the sports will be held on Monday, July 2. However, a fairly heavy entry is expected in the softball events and to avoid congestion on Monday, the committee has made arrangements to run off the preliminary rounds of the men's open, boys' and girls' entries on the Sunday so as to bring them down to the semi-finals in all three events. This will leave the semi-finals and finals for the Monday, at which time the year class.

Artists taking part in the entertainment program were piano major J. Moore and son Louie Moore with harpique selections, H. Parkinson, E. Hill, A. McCulloch, Miss A. Yull and Miss Y. Mataya.

Awards were as follows:

Men's Senior Class
 Certificates: L. F. Shaw, W. Clark, F. Kyncl, J. Biadzich, J. Zajka, R. Campbell, E. Richards, J. Beigun, K. J. Budd, J. F. Ondrick, W. Simla, H. Newsome, J. Sygutek, F. Henriet, W. Raymond, G. Dufford, M. Kropiak, P. Kinakin, S. Quaife.

Vouchers: T. Kryczka, J. Kovacic, O. Dwyer, J. M. Hollowkin, J. F. McIntyre, G. D'Appolonia.

Medallions: S. Murdoch, W. Mazzell.

Labels: G. Clarke, J. Simla, M. Kubica, E. Hill, N. Frandsen.

Ladies' Senior Class
 Certificates: Mrs. O. Clark, Mrs. M. Shaw, Miss L. Evans, Miss Y. Mataya.

Label: Miss A. Yull.

ELKS DECORATED GRAVES OF DEPARTED MEMBERS

On Sunday, June 24, Coleman Elk members marched to the Union and Catholic cemeteries, where memorial services were held over the graves of departed brothers.

Graves decorated included those of Wm. Bell, Di. Randall, H. Gage, A. Bowring, R. Eastwood, J. Lysick, A. Squarello, J. Hopkins, H. Antle, A. Cornett, H. W. Clark and W. Bobbitt.

SGT. IVOR MORGAN HOME FROM OVERSEAS

Sgt. Ivor Morgan arrived home from overseas last Thursday. He had been overseas for more than a year and was a member of the RCAF ground crew.

Happy to be home with his parents, Mr. and Mrs. George Morgan, he is now busy renewing old acquaintances with his many old friends.

FO and Mrs. McGregor will reside in Courtenay, B.C.

Hon. W. A. Fallow Promises Hard-Surfaced Road From Pincher to B.C. Boundary; Promise Given Duke

Prior to leaving on his summer vacation to Victoria with Mrs. Duke, E.O. Duke, M.L.A. made it known that he had received a sincere promise from the Hon. W. A. Fallow, Minister of Public Works, that the No. 3 highway from Pincher Creek to the B.C. boundary would be hard-surfaced in 1946.

Mr. Fallow is quoted as saying that he could not promise to hard surface the road this year but he would definitely promise to have it hard-surfaced in 1946. He also promised that the main road leading into Hillcrest would also be hard-surfaced.

LIONS HELD PICNIC AT BAGLEY'S RANCH

NEW SIDEWALK BEING LAID FROM POST OFFICE TO HALMERS' STORE

On Sunday afternoon Coleman Lions, their families and friends motored out to the Bagley ranch west of town and had a most enjoyable picnic. Old Man Weather was on his best behavior and the picnic site was indeed beautiful.

All took part in softball, horseshoes and hiking. The new president, S. C. Short, aided by Maurice Cooke and Harry Welton, looked after the thirst and appetites of all. The kiddies, in addition to food and pop, were also given bags of popcorn. During the afternoon kiddies' races were run off under the supervision of Jim Cousins, each competitor receiving a nickel or dime prize.

The picnic came to a close around 9 p.m., ending a glorious day's outing.

IMPROVEMENTS AT ST. ALBAN'S

The steps and platform in front of St. Alban's church are being removed to be replaced by a concrete platform, connecting up with the newly constructed steps that are being installed by the town.

Mr. O. Celli the contractor handling the arrangements for the church, which is being financed by one of the church organizations.

Other improvements are being made by the construction of a concrete retaining wall on the north side and west end of the parish hall. A certain amount of gravel on the west end, where the public thoroughfare now is, will be taken away. Mr. D'Appolonia, contractor, has charge of this project.

It would be much appreciated if the parishioners attending services in St. Alban's on Sunday, July 1, would use the north side door of the church, and make their approach from the top of the hill. This is imperative owing to construction under way at the front of the church.

Janitors Wanted

WANTED - Two capable Male Janitors for the Coleman Central Schools. Apply by letter stating qualifications to the Selective Service, Blairmore, Alberta, not later than July 7th, 1946.

Notice To Ratepayers

The Board of Trustees of the Coleman School District No. 1216, hereby wish to state that the resolution pertaining to the dismissal of the Principal and Janitors of the Coleman Schools was by **UNANIMOUS** decision of the Board.

By order of Board of Trustees,
 G. Lees, Secretary-Treasurer.

WORLD HAPPENINGS
BRIEFLY TOLD

The one o'clock time gun at Edinburgh Castle, last fired on Sept. 1, 1939, has resumed its daily time signal.

War in Italy caused the destruction of 800 main highway bridges and hundreds of spans on secondary roads.

Russell T. Kelley, chairman of the Red Cross blood donor service in Ontario, said the Canadian Red Cross will need more than 500,000 blood donations annually.

A London Transport bus driver who has not been involved in an accident in 27 years has received a bronze badge, highest award in the national "safe driving" competition.

The King and Queen with Princess Elizabeth and Margaret paid a private visit to Burlington House for a preview of the Royal Academy summer exhibition.

Germans say that 120 feet was blown out of one side of the Tirpitz by 12,000-lb. bomb which sank the Norwegian fjord on November 11, 1944. A thousand of the crew perished.

Floating docks for use by the Royal Navy in the Pacific war are being built in South Africa. The first dock, built at Capetown and completed within 13 months, already has been towed to its destination.

A gas model airplane designed by H. V. Faulkner of Vancouver was clocked at 122 miles an hour, a new world's record. The previous record held by Williams and Clark of Los Angeles, was 112 miles an hour.

The Netherlands radio announced that the Princess Irene Brigade, a small Netherlands force consisting of conscripts in England and volunteers from all over the world, which trained at Stratford, Ont., will be demobilized.

Wings Of Mercy

Plane Comes To Rescue When Lives Of Children Were At Stake

Twice in the same week, Trans-Canada Air Lines was called upon by the Winnipeg General Hospital and in both cases lives of children were at stake. The first was the case of the infant son of Mr. and Mrs. R. F. Yells, of Winnipeg, born with a throat obstruction and in need of immediate operation which could be done only by Montreal specialists.

T.C.A. managed to arrange space for the two-day-old child and a nurse and within a matter of hours the infant was in Montreal and the operation was performed immediately.

Two days later, the same hospital was urgently in need of influenza serum and a telephone call was placed to the Children's Memorial hospital in Montreal. Forty minutes after the telephone call, the serum was placed aboard a T.C.A. plane in Montreal, which was held fifteen minutes behind schedule to receive the shipment, and the serum arrived in Winnipeg eight and one half hours later.

AN OLD HAND

A woman applying for a job with the telephone company was asked if she'd had any such previous experience. "Oh, yes," she said. "I used to work for a professional strong man—I perforated phone books so he could tear them in half."

New York city recently received the first carload lot of horseshoe nails shipped into it in more than a century.

LIFE'S LIKE THAT

By Fred Neher

"I rationed my husband for two weeks and saved enough to buy a new hat."

THE LONG AND THE SHORT—Trans-Canada Air Lines has recently adopted an improved method of ticketing. A single flight coupon for the entire passenger-journey now takes the place of separate coupons to each point on the route. This is accomplished by the arrangement of code designations in small blocks and the use of punches. Time-saving in employee preparation of the new tickets exceeds 75%. Paper costs are reduced by two-thirds. The length of the ticket covering a journey from coast to coast used to measure 2 feet 7 inches as compared with 9 1/2 inches for the new ticket. Holding samples of the old ticket and the new ticket are, left to right: T. W. Kirkhahn, supervisor of passenger agents; G. T. Featherstone, revenue accountant; and Percy W. Baldwin, auditor.

Counting Its Losses

Scores Of Historical Buildings In London Damaged By Bombs

When bombs fell on London, landmarks were destroyed, and now that "explosives no longer come from the sky the capital is counting its losses not in dollars but in history."

Buckingham Palace suffered on three occasions. The private chapel was knocked down. The home in Mayfair where the royal couple lived the Duke and Duchess of York was flattened.

The Houses of Parliament, unmissable targets on the Thames, were hit early in the war. In May, 1941, St. Stephen's Hall, where the House of Commons met, was reduced to rubble.

Big Ben was shaken and scarred, but survived to boom out the hour of victory just four years later.

Prime Minister Churchill was sure 10 Downing street was a priority target. On one occasion as the bombers swept up the Thames he told a newspaperman "they know very well where this house is and they will try to get it."

They almost did, too, in 1940-41 and again in 1944.

Kensington Palace, where a young Victoria was roused from bed one dark morning to learn she was Queen of England, is black now from the flames of incendiaries.

The Tower of London, the Royal Mint, the Imperial War Museum, the Law Courts, Old Bailey Court, Lincoln Inn Fields, where the R.C.A.F. had its wartime headquarters, the British Museum, where two dodos passed through the same hole, and the Royal Albert Hall—were damaged.

Two of the oldest homes in the City were among the first to fall to the blitz. A place in Fetter lane, just off Fleet street, built in 1664 and survivor of the Great Fire of 1666, was leveled in 1941. Similarly, the home of Katherine Parr, the wife who outlived Henry VIII, was razed by a fire bomb. It stood at No. 10 Charterhouse square since 1450.

A GOOD LESSON

The fact that a single bee will not collect more than a teaspoonful of honey in an entire season indicates what can be accomplished with a little effort by a great many.

New York city recently received the first carload lot of horseshoe nails shipped into it in more than a century.

CHILE

Chile's production of iron ore is the largest in Latin America.

Race Prejudice

Would Not Exist Among Children Without Idea From Adults

An experiment in race relations in a number of recreation camps in the United States showed that race prejudice would not exist among children if parents or other adults did not put such ideas into their minds. White and negro children visited each other's homes, played together on playgrounds, exchanged and shared toys and generally enjoyed themselves together. A clergyman who helped conduct this experiment remarked: "It is only when youngsters grow up and learn from their elders that they acquire the traits and ideas that make for prejudice and ill will."

Toronto Star.

Uses Of Penicillin

Is Said To Cure Carbuncles And Sore Throat

Sir Alexander Fleming, the discoverer of penicillin, told doctors and surgeons recently that the drug could stop the spread of a carbuncle in two days. He prophesied anyone with a sore throat would just go to a drug store and get a penicillin lozenge, and the sore throat would disappear.

Enterprising druggists will eventually put a penicillin lipstick on the market. Penicillin is the ideal antibiotic, he said, because it is non-poisonous and because it is impossible to over-dose a patient with it.

John Law, Scottish economist, started the stock exchange.

Vegetables For Britain

Order Received By Canada For Vegetables To Value Of About \$10,500,000

Under the terms of an agreement just completed, the British Ministry of Food will purchase 746,700 bushels of Canadian dried white beans grown in 1945, and such additional quantities as may be made available from the Special Products Board, the Dominion Department of Agriculture has announced.

The British Ministry will also purchase from the Board from the 1945 crop 4,375 long tons of dehydrated potatoes and 2,250 long tons of dehydrated cabbage, carrots, turnips and beets. The Ministry agrees to purchase an additional 10 per cent of these products if available. Total value of the beans and dehydrated vegetables is placed at about \$10,500,000.

War Prisoners

U.S. Army Using German Prisoners Of War As Laborers

The United States army dictated it plans to retain 600,000 German prisoners of war as laborers.

When victory came, American armies held 2,852,000 German war prisoners on the Continent. In addition to the 600,000 to be used by the American army, arrangements have been completed for transferring 200,000 to 225,000 American-held prisoners to France for labor, Col. Robert J. Hill of the US Provost Marshal's Office disclosed at Allied Supreme Headquarters.

Much Slower Now

But Pig Once Won Race With A Horse In Ireland

Pigs are a lot slower than they used to be. In Ireland, 150 years ago, there was a tall, lean, short-eared breed known as the greyhound pig which could run so fast that few could keep up with it.

The greyhound pig was used by sportsmen to lead the hunt and in 1774 the owner of one of these animals won 60 thousand pounds on a race between his pig and a horse.

The pig came in first by a few feet.

AVIATION AGREEMENT

The international civil aviation interim agreement now is in effect with acceptances from 30 nations, four more than the required number. It was learned at Washington. Canada and the United States are among them.

Modern battleships require more than 1,600 electronic tubes each.

R. M. BROPHY

Is Head Of Radio Manufacturers Association Of Canada

R. M. Brophy, president of Rogers Majestic Limited and Rogers Electronics Limited, was re-elected as president of the Radio Manufacturers Association of Canada. Also re-elected to the vice-presidency was S. L. Capell, vice-president and general manager of Philips Corporation of Canada Limited. W. R. Richardson was re-appointed general manager of the association.

The 16th annual meeting was held in Niagara Falls, Ont. All Canadian radio manufacturers and most of the leading trade manufacturers were in attendance. Mr. Brophy stated that recent surveys indicate the radio industry has the plant facilities and the manpower to start the production of radio receiving sets. At present Government orders prohibit such manufacturing, but it is hoped they will soon be rescinded.

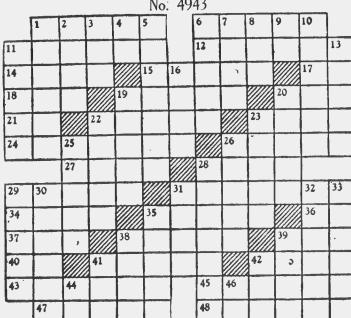

"There will be many difficult problems to overcome before radio sets will appear on the market," said Mr. Brophy. "There are still shortages of raw materials and components; there will have to be a realignment of plant facilities, etc., but I am confident these will be met speedily and efficiently."

A comprehensive survey conducted for the Radio Manufacturers Association of Canada made by Canadian Facts Limited, revealed that 24% of the radio sets are 10 years old or older; 34% are from 5 to 10 years old; 21% are 3 to 4 years old and about 8% have been bought in the past two years.

JEAN CAMERON

OUR COMPLETE
SHORT STORY—

THE WEB

By —

JEAN CAMERON

McClure, Newspaper Syndicate

Owen Roberts, leaning disconsolately against the kitchen door, watched Martha examine the cherry pie. It was not quite done, and she shoved it back into the oven and turned to him with a merry laugh. "Here," she said, lifting the baby out of his high chair, "you can hold Michael and tell me what's on your mind while I poke at this roast. I think the old oven was better, after all!"

The solid warmth of the little boy was quieting. Owen slipped to a stool and unconsciously relaxed. "Rule number one," he grumbled, "don't bring your office worries home. Oh, they're only little things—papers not getting typed—a hundred petty cases—indignant taxpayers wanting to know why the tax district attorney doesn't win every trial—and another one of those vicious little store robberies."

Martha gasped. "You mean that burglar who ruins everything?"

He sighed and gently freed his necktie from the baby's grasp. "Just like the others—the dress shop with ink poured all over the stock, the neighborhood bakery with the ovens put out of commission. This was a candy shop run by a widow. Twenty dollars taken from a can under the counter, boxes smashed, and her account book ripped up." He flushed. "If they ever bring that man into my court," he said energetically, "I'll prosecute as I've never done before, not in my biggest case! That's not burglary! It's wanton destruction. The most he's ever found in a shop is seventy-eight dollars. And people demanding to know why the police can't do something. It's impossible for them to keep an eye on every one of those little shops every minute. Most of them have poor locks and no burglar alarms, and the little ones are the only ones these thief scolds."

Martha drained the potatoes into the sink. "You seem very sure it's a man."

"Oh, he was seen last night. That's the worst of it. A high-school boy coming home from a show saw the thief leave the shop and go down the street. The kid didn't think much of it till today. He was standing on the porch fussing for his key and saw the fellow distinctly under the street light, for he waited on the corner and got on a north-bound street car. The boy's description isn't any help to us, but he's positive he could recognize him. The biggest clue, I think, is that the fellow is such a despicable type. He'll trip himself up!"

The back door opened and Tommy fell in. As he rushed to wash, he shouted over his shoulder details of the movie he had seen downtown with his aunt and cousins, and his report was continued at the table.

tween man-sized bites. Martha beamed proudly at him. In spite of his chinkiness he bore a striking resemblance to his tall father, and the difference in age between her two children made a special place for each of them in her heart. "What did you say about afterwards, Tommy?" she inquired.

"That was the most exciting! A lady fell getting off a bus, and there was a crowd, and people talking, and the driver took everybody's names. He took Aunt Cora's name, too. D'you think she'll be in court? D'you think she'll be in Father's court?"

Owen slapped his hand on the table and uttered a loud ouch, for he had struck it on the carving fork. "Tommy," he pronounced solemnly, "you have given me an idea. If it works out, I promise to go with you to the Saturday Wild-Western double feature, even though I can't bear the things."

He grimed mysteriously at Martha, and the grin spread wider after the dishes were done and he was scribbling on small bits of paper which he carefully concealed. "What am I doing? I'm visiting the spider," he declared with a threatening sweep of his long arms. "The artful spider who issues invitations, and tomorrow, darling, I am going to place an ad in the newspaper."

"And so," said Owen two days later, with a triumphant gesture, "he walked right into the house, and as soon as the boy identified him Officer Donavan arrested him. Now he's confessed." He pulled a piece of newspaper from his pocket. "What Tommy said about the bus accident gave me the idea, and I stuck this under persons' noses: 'Will gentleman who saw lady fall in north-bound Oakland street car evening of June 7 call at 2173 Lake Street.' Liberal reward!"

I knew he was on that line that evening. I guessed that he wouldn't pass up such a chance to get a little money and particularly to make trouble for the company by swearing to anything and everything desired. He's a shrewd fellow—Mrs. Donavan said he kept her going for fifteen minutes telling him a satisfactory story of her fall—but he'll be put away for a long time. And what do you think, honey? I'm going to buy you that electric mixer; it beats, it creams, it cleans—no, it could hardly clean."

Martha pulled him down on the sofa. "No, you don't," she said grimly. "Not another thing for the kitchen. I'm going out to buy a hat—and one of those big jeweled spids to stow on my suit lapel!"

Lost To The World

Secrets Of Houdini The Magician May Never Be Known

The secrets of the legendary legend-man, Houdini, were forever placed beyond the reach of men's minds with the death at New York of his brother, and died, in Great War I.

Houdini, master magician of all time, died in 1926. To Hardeen, an eminent prestidigitator in his own right, he bequeathed his tricks and arts, stipulating that on the latter's death they should go to the grave with him.

Through the intervening 19 years, Hardeen complied with terms of the will. No one but himself knew how, or Houdini, escaped from inside tanks, locked trunks or sealed chambers.

RAILWAY EXTENSION

A Pacific rail outlet for the Peace River district came one step closer as Premier John Hart of British Columbia announced plans for the proposed extension of the provincially-owned railway from Prince George to Dawson Creek have been filed in accordance with the Railway Act.

Netherlands East Indies are among the world's first producers of rubber. Before the war, Java alone had over 500 rubber industries.

A COUNTRY EDITOR LOOKS AT
OUR CANADA
BY JIM GREENBLAT

• Bits of Canada: Fred Hearld, of Lymburn, Alta., York sow shipped out, tipped scales at 700 lbs and netted \$68. . . . The spirit of giving Orono (Ont.) district Women's Institute sending gift of 240 lbs of honey overseas again this year. . . . In final game of a fastball tourney at Maple Creek, Sask., a cute little blonde called out on the third strike, said this to the umpire, according to The News: "You blind old bald faced short beaked pelican, why don't you look where you're seeing?" . . . Believed to have been engaged in manufacturing a home-made "firecracker", Kath Milmine of LaSalle, Ont., lost both hands when it exploded. . . . The Home United Church of Allora, Ont., celebrated the 18th anniversary of their present building and the 18th anniversary of the congregation. . . . A grain elevator at Barnwell, Alta., got a free stuco job when a sandstorm blew up after the structure had been painted. . . . Mr. Bowen of Cranberry Lake, B.C., bagged a 300-lb bear in his back yard.

• One of the first conferences of its kind, on rehabilitation for returned men, was held for two days, embracing the whole district around the town of Wynyard, Sask. Government representatives, community and district folk who talked the matter over in the round table style, came to the conclusion that "Ottawa and Regina have set up the re-establishment machinery. But only understanding neighbors can help the veterans to pick up the threads of civilian life. It's up to you!" There were panel discussions, films and splitting up into little committees to delve into every phase of the job. That's the way to get things done and it's an inspirational thought for other communities.

• The Penticton, B.C., town council has another idea to help returning service men and women, adopting the principle they will sell property to them at half price, with the purchaser paying the full price to begin with. At the end of three years they may apply for the 50% rebate, if still holding the property. This applies to any two lots within the municipal zoning area.

• From Killarney, Man., comes an example of "doing more with less." Farmer-auctioneer Maxwell for a month asked every farmer who came to his office whether he had any farm machinery he wasn't using, and didn't intend to use. With a little help in the local press he soon had a saleable list of farmable equipment and held a sale which grossed over \$60,000, and farmers who needed odd equipment got it.

• Near Herbert, Sask., Dave Simeon returned from overseas unable to get necessary farm machinery in time. Neighbors turned out for a bee with seven sevens and in eight hours solved 80 acres of wheat for him. Don't need politicians for that kind of co-operation.

• Two weeks ago, Sgt. Sandy Cavan of Kirkland Lake, Ont., went to Toronto for his discharge after serving in this war. He was suffering from pleurisy and pneumonia. X rays discovered a chunk of shrapnel in his right lung, which was deposited there when the Sgt. Major stopped a burst in 1916, in Great War I.

• A thought from the North Baffin, Baffin, N.W.T. "Democracy demands more of citizens than do other forms of government. It takes for granted education, interest and high integrity. It is only in the absence of these that dictators can arise, and, by holding out promises of easy and quick ways of doing things, seize power. Democracy may be slow to act, but its delay is often due to the fact that public opinion is not so quickly made up as a brain-truster's mind. This is not proof of inefficiency, but a great safeguard of free society.

Improve Your Home

A Plea For Beautification Of Urban
And Rural Homes

The Lethbridge Herald relates a story about a man in Seville to back up its point that more people should paint more buildings and homes to make Canada a brighter and more cheerful place.

"There was once a citizen of Seville about to paint his house in accordance with the time honored custom that requires a yearly application in that city of gardens and flowers of bright color to the facade of every home.

"The painter came to the door and courteously inquired: 'What color, Señor?'

"'Ask my neighbor across the street for he is the one who will have to bear it,' replied the owner without a minute's hesitation."

It's the neighbors alongside and across the street who have to put up with the shabby-looking houses, says the Herald. Nothing is more of an eye sore than a couple of dismal, unpainted houses in a block alongside of homes that are kept looking bright and neat through frequent painting.

"This may be interpreted as a hoist for the paint dealers," says the Herald. "Rather it is promotional material for beautification of our rural and urban homes. It has to do with the need of freshening up the appearance of houses and other buildings that look very shabby because paint hasn't been applied to them for too a long time."

Treasure Ship

Locate Sunken Pirate Ship On The
New England Coast

Edward Rose Snow, New England coastal historian, says he believes he has located a treasure-laden pirate ship in 14 feet of water, 45 miles off Province town, on the tip of Cape Cod.

He said that two divers, Al and Bill George, brought up coins from the sunken craft. The vessel, he added, was discovered originally in 1879 when a chest of coins was recovered from the ship.

He explained the new find was made while divers were attempting to identify positively the hull of a vessel believed to be the steamship Portland, which sank in a storm in 1893 with the loss of many lives.

• One of the first conferences of its kind, on rehabilitation for returned men, was held for two days, embracing the whole district around the town of Wynyard, Sask. Government representatives, community and district folk who talked the matter over in the round table style, came to the conclusion that "Ottawa and Regina have set up the re-establishment machinery. But only understanding neighbors can help the veterans to pick up the threads of civilian life. It's up to you!" There were panel discussions, films and splitting up into little committees to delve into every phase of the job. That's the way to get things done and it's an inspirational thought for other communities.

• The Penticton, B.C., town council has another idea to help returning service men and women, adopting the principle they will sell property to them at half price, with the purchaser paying the full price to begin with. At the end of three years they may apply for the 50% rebate, if still holding the property.

• From Killarney, Man., comes an example of "doing more with less." Farmer-auctioneer Maxwell for a month asked every farmer who came to his office whether he had any farm machinery he wasn't using, and didn't intend to use. With a little help in the local press he soon had a saleable list of farmable equipment and held a sale which grossed over \$60,000, and farmers who needed odd equipment got it.

Quality You'll Enjoy

"SALADA"
TEA

Polish Warriors in Prison Camp—Wounded while fighting with the Polish Army at Warsaw, these Polish girls were captured by the Germans in September, 1939, and placed in a prisoner-of-war camp at Haren, Germany. They were liberated nine months later by the Polish Division of the First Canadian Army, and then assumed complete management of the camp.

Demand For Eggs

Need Every Egg Possible For Food
Supply

In an endeavour to convey to egg producers in Canada the urgency of obtaining from existing flocks every egg possible this year and of conserving its quality right through to the consumer, the Egg and Poultry Market Report of the Marketing Service, Dominion Department of Agriculture, emphasizes the necessity of making every egg count. The overall need for food is the justification for this appeal at this time. Europe needs food, particularly animal proteins, and there is not enough food of that kind in sight to meet all requirements in the next six months.

Great Britain has provided liberally for her supplies for military relief in European countries. As a result she has already been forced to reduce rations for her own people. Eggs are an important asset in providing needed proteins. The need now is even greater than during the European war. Every effort is required, therefore, to see that all possible eggs are produced by existing flocks and not one egg that is produced is lost either through deterioration in quality or through breakage.

• Tea-time stars

Tea-time is a happy time, any season—a time for relaxing, nibbling, sipping! And when callers arrive during afternoon or evening, even in these busy times, it is pleasant to serve them some small refreshment—nothing elaborate, nothing heavy—a cup of hot tea, a glass of iced tea, small wafers or cookies.

Knowing hostesses—and busy mothers—keep a supply of simple crunchy cookies on hand for casual parties—and the constant demands of youngsters, to whom all hours of the day are apt to be tea time.

A delightful tea-time cookie that will save tea-time any hour is Fruit Surprise Cookies.

1 1/2 cups chopped dates or raisins
1/2 cup sugar
2 tablespoons water
2 tablespoons orange juice
1 tablespoon grated orange rind

1 cup shortening
1 cup brown sugar
3 1/2 cups sifted flour
1 1/2 cups baking powder
1/2 teaspoon salt
1/2 cup water
1/2 teaspoon vanilla
2 cups corn flakes

Combine dates or raisins, sugar, water, orange juice and rind; mix well. Add shortening and flour.

Blend shortening and sugar thoroughly. Sift flour, baking powder and salt together and add alternately with water and flavoring to first mix. Blend well. Roll out dough 1/8 inch in thickness. Cut with floured cookie cutter; spread one round with filling and put a second round on top, pressing edges together. Bake on greased sheet in moderately hot oven (375 degrees F.) about 12 minutes. Yield: 30 cookies (2 1/2 inches in diameter).

of Georgian Bay, and had 900 lbs of lake trout . . . a fisherman reached

Fish Lake, B.C., to find the surface covered with dead fish, they supposedly had been trapped between two layers of ice . . . a Hamilton fisherman at Sunny Bank, Waupoon, waded in and grabbed apike with his hands. It tipped 12 lbs . . . A sturgeon that weighed 135 lbs, produced 35 pounds of caviar which was shipped to New York to bring around \$80, was caught in Lake Huron, at Fred Gallie's fishery at Erol . . . Duncan Kerr of Port Alberni, B.C., put out his sockeye gill and had a 20-foot shark entangled in the net. It was subdued after a terrific battle and produced six fish boxes full of liver.

Fish & Game Notes

Several members of our association visited the Blairmore club last Friday, June 22. The main purpose of the meeting was to ascertain if all clubs of the Pass were in favor of having rearing ponds established in Blairmore. It appears that this would be the most central location for our district, since a few ponds in a group could be more easily cared for than they would be if scattered throughout the different towns.

Since our streams have become so depleted of late, we believe that we would require rearing ponds of our own, as the number of fish raised at Pincher Creek are not at present sufficient to meet our needs. Let's boost for more fighting fish.

The Blairmore club is now affiliated with the Alberta Fish & Game Association.

Following are excerpts from a couple of letters received by our energetic president, Percy Knowles. The first is from the Consolidated Mining & Smelting Co. regarding the fertilization of Crows' Nest Lake:

"Though the use of chemical fertilizers for growing plankton in small artificial fish ponds of a few acres extent has recently made rapid progress in the U.S., experimental work in connection with inland natural lakes is still in its infancy, particularly in Canada, and we are not in a position to make definite recommendations at this time or to supply accurate cost information."

"This Company has been following closely the application of chemical fertilizers in artificial ponds, inland fresh water lakes and tidal waters, and has been in contact with Canadian fisheries officials to study the Canadian situation. We hope that arrangements can be made for practical experiments under a variety of conditions so that definite recommendations can be offered in due course."

The following is from G. M. Sparro, secretary of the Alberta Fish & Game Association:

"I have just read the account of your joint meeting in The Albertan. It would appear from all indications that you boys in the Pass do not hesitate in speaking your minds, and that's what I think is necessary. . . . I expect that our good friend, Mr. Sison, of Game Trails, will be down your way shortly and he will give you the low-down on "Sunday shooting," of which he is the strongest and best exponent we have in the province.

"Can you spare a Blue Upright?"

SEVERAL PLAN TRAVELLING TO COAST BY CAR

Prior to the outbreak of war The Journal used to take great pleasure in contacting Fred Antrobus for Coleman motorist's license numbers in order that former Colemanites now residing in Vancouver would be better able to spot a local car which may be parked in a Vancouver street or in Stanley Park.

The recent gasoline boost has again made it possible for several local citizens to plan on taking their trip to the coast by car this summer and for the convenience of Vancouver friends here are the Coleman license numbers. Clip them out and put them in your pocket so that you might be able to check Alberta license numbers:

43-451 to 43-700
94-051 to 94-100

In Memoriam

BEART—In Loving Memory of my dear husband, Ernest William Beart, who passed away on July 2, 1942.

And while he sleeps a peaceful sleep,
His memory I shall always keep.
Ever remembered by his loving wife.

BEART—In Loving Memory of our dear brother, Ernest William Beart, who passed away on July 2, 1942.

Still in memory you are with us,
As you always were before.

Ever remembered by sisters Hilda, Bessie and Mary.

BEART—In Loving Memory of Ernest William Beart, who passed away on July 2, 1942.

What would I give to clasp his hands.

His happy face to see;
To hear his voice and see his smile.

That meant so much to me.
Sadly missed by his daughter, Dorothy, son-in-law, Ernest, and grandchildren.

KENNEDY—In Loving Memory of Eugene Kennedy, who passed away at Cranbrook, BC, on July 5, 1944.

Nothing can ever take away
The love a heart holds dear.
Fond memories linger every day,
Remembrance keeps him near.

Sadly missed by his brother Ernest, sister Pearl and sister-in-law Dorothy.

MORE GASOLINE FOR CARS ENTERING U. S.

Welcome news for Alberta motorists who plan to make trips to the United States during the holiday season has just been received by the Alberta Motor Association.

The U.S. authorities have increased the gas allowance for Canadian motorists entering the U.S. Instead of the former 15 gallons allowed, the ration has been increased to 20 gallons, covered by two coupons, each good for 10 U.S. gallons.

While the U.S. gallon is not as heavy as the Canadian, this additional fuel allowance will be welcomed by drivers.

It is all the more so in view of the announcement that the U.S. has

WIN A TOURISTS' LODGE

\$13,000

TOURISTS' LODGE, a 1942 CHEVROLET SEDAN, 73 other prizes, 75 prizes totaling \$20,000 or the equivalent in Victory Bonds. Mail this "ad" with ONE DOLLAR subscription to "The Kamloops Memorial Recreational Society," 359 Victoria St., Kamloops, B. C.

Proceeds to be used to erect a Recreational Centre for our returning Veterans and the citizens of this district. Date of drawing to be announced in the press. Don't delay. Act now!

relaxed border crossing restrictions on Canadians visiting the U.S. for 29 days or less.

While the allowance is increased for motorists entering the U.S., a

note of warning against Canadians using up their coupons in the hope of the Dominion's allowance being further increased this year has

been sounded by federal govern-

ment officials.

It has been stated that there is no immediate prospect of the gas ration being increased or being lifted in Canada.

Soldiers' Letters

Dear Sirs: I really feel quite ashamed of myself in not acknowledging the receipt of two parcels of Sweet Caps before now, so I wish to apologize sincerely for my tardiness. The reason for my tardiness could be attributed to the fact we were on the move and so consequently our letter writing had to be postponed until such times we had more time to ourselves, and that I might say was only quite recently.

No doubt you have noticed the name of the city (Enschede, Hol-

land) we are stationed in on the top of this letterhead. I might add we are now allowed our letters to go through uncensored and thus can tell what part of this fair country of Holland we are in, although all mail addressed to us must still be addressed the Army way. We were in Germany close on to six weeks and then received orders to move to this fair city of Enschede. When we arrived here we were told not to unpack as orders were coming through for us to go back in around Bremen way, so for a few days we did nothing but eat and play ball, then finally orders came through to set up shop, and I can assure you

that was welcomed very much by all the boys, for whilst in Germany we were prohibited from fraternizing with the German people, and so to be able once more to mingle with these grand people was indeed a real treat. We all agreed, of course, that the High Command was correct in their belief that the German people should be shunned, for after all they were the people who elected Adolf to run the country for them and thus was as much to blame as he and his cohorts in causing countless untold agonies and privations throughout this old world. To those that are put in charge to administer and guide what remains of the once "Third Reich," may God grant them the wisdom and fortitude in the planning of the re-education of the German people on the ideals of Democracy and for what it stands for as we have it in the British Empire of Nations and that of the United States of America and then perhaps in the next 25 years or so the German race of people will be able once more to lift up their heads in the world again as a God fearing and Christian race fit to love and honor their neighbors as they themselves would like.

As I said before they have caused countless untold agonies throughout this old world. I would like to devote a few short lines to those who have lost their all, including those good people who have lost someone in the forces of the United Nations who were very dear to them. I must ask God to pour down on them His richest blessings on their great loss, as He knows that they have not died in vain, for they have fought and died to maintain the ideals of Democracy from the rule of tyranny and oppression which would have surely been enforced on to the peoples of this world by our enemies.

Now, I could enhance on this letter quite easily, but then it would force me to have it bound in book form at the end, and so I trust you will therefore forgive me in cutting it short.

I wish at this time to express my sincere thanks to the good people of Coleman and to the Coleman branch of the Canadian Legion for the money and time they have spent in making these gifts of tobacco possible. You have indeed played your part in this struggle in maintaining the morale of we boys with these gifts. I for one sincerely appreciate your efforts indeed.

Will now close, trusting that ere long I will have the opportunity of thanking you all or as many as possible in person.—J. A. Howarth.

BIRTHDAY PARTIES

On Sunday, June 17, little Melvin Knight celebrated his first birthday with a party at which several of the neighborhood youngsters gathered to help him eat his birthday cake and drink his pop. Melvin was the recipient of a number of small gifts, for which he grinned his pleasure.

On Monday afternoon, June 18, Bobby Fleming invited a number of his young friends to his home to help him celebrate his fourth birthday. Following a number of games he led the way to the table where Mum had prepared a spread of many delicacies and told the gang to help themselves . . . which they did. Bobby received a number of birthday gifts from his little friends, for which he expressed his thanks.

NATIONAL SELECTIVE SERVICE

The Unemployment Insurance Commission reminds all men on occupational postponement under the military call-up, that while they have had their postponements extended until further notice, they are not free to change their jobs. It was recently announced from the department of labor that it was not longer necessary for either a man on postponement or an employer to request from the mobilization registrar a renewal of postponement of military training.

In regard to farm workers, men engaged in agriculture must not leave that essential work for other employment without a permit from an employment officer. Over in Europe, liberated peoples are looking towards Canada to help supply them with food. This year, Canada's agricultural program is heavier than at any other time in its history and the department of labor will spare no effort to ensure that our overworked farmers, who have made such a magnificent contribution in the past, are given the assistance of every available man.

Dear Sirs: Thanks a million for cigarettes received today. They are as ever welcome. Thanking you once more and hoping all is well with the old Home Town.—R. McMullen.

Letters to the Editor

Barrington West, N.S.
June 16, 1945.

The Editor:

Many thanks for sending me a copy of The Journal with its account of the celebration of the Fortieth Anniversary of the establishment of the Church of England there under my ministry. My hope is that it will ever prosper and be a means of blessing to the community.

I have retired from the regular work of the ministry. My only regular connection with such now is as president of the Shelburne County Ministerial Association, which includes practically all the ministers in that district. My wife died a year ago. My oldest child is going to Saskatchewan this autumn to do missionary work in connection with Indian Reserves. My second, a son, has been doing what has been considered necessary war work in Pennsylvania. The youngest, under thirty, is a lieutenant in the Canadian Army of occupation in Germany.

Yours truly,
R. A. Robinson.

Michel, BC, May 28/45.

An Open Letter to the

Citizens of Coleman.

Dear Citizens: The community of Michel-Natal have finally realized how far behind other towns they are in regards to sport facilities and post-war plans for the return of the men and women in all branches of the service, and so, with these thoughts in mind, three large public meetings have been held from which a plan for the betterment of the community has been drawn up.

The first step in this plan is the

sponsoring of a Dominion Day cele-

bration, starting with a carnival

on June 30, with baseball and soft-

ball tournaments for men, women

and juniors, mixed track and field

competitions for all ages and three

large dances starting Sat., June

30. A large parade will be held on

Monday, July 2, one of the main

features of which will be the crowning

of the Dominion Day queen.

An added attraction will be an

open-air band concert on Sunday,

July 1, by our local Miners' band,

which will be in attendance at this

celebration at all times.

The proceeds from these events

are to be used in starting a building

fund for a community swim-

our celebration and help us lay the foundation for a better and more suitable place for our returned men and women and children to live in.

The people of Michel-Natal, along with their different teams in various sports, have always attended other celebrations throughout the Pass in an endeavor to support the different towns and organizations and help make them a success, therefore, the Michel-Natal Dominion Day Sports Association are making an appeal to the people of Coleman and their sport teams to reserve this date and support

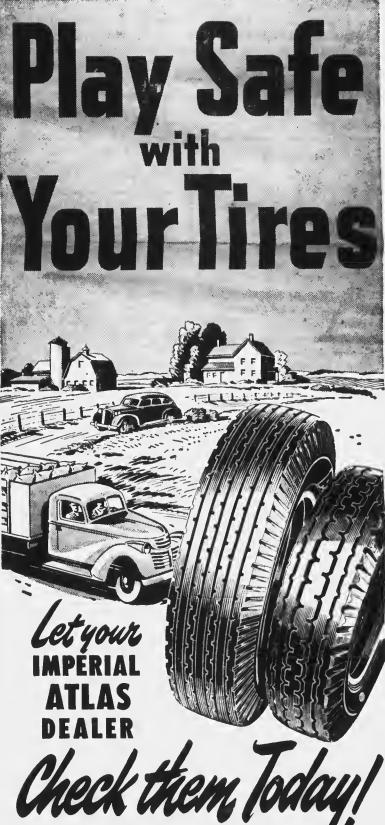

John Thomson, Chairman,
Michel-Natal Dominion Day
Celebration.

TODAY your tires are older than ever! Will an unsuspected weak spot "let go" one of these days—laying up your car or truck—costing you time and money—perhaps resulting in serious crop losses, too? No farmer can afford to take chances like these when it's so easy to protect tires against failure. Just drive in to your Imperial Atlas dealer. He will carefully inspect your tires . . . check them for cuts, breaks and weak spots.

If you need new tires, remember that Imperial Atlas Tires are engineered for extra miles in farm service. They are built to "take it" on rough roads, with heavy loads . . . and priced to give you mighty big value in first-line tire quality.

The Uses Of Propaganda

PROPAGANDA HAS BECOME ONE of the most powerful weapons of modern warfare, and it has played a highly important part in the present conflict. Through the clever use of propaganda, Hitler built up his regime in Germany, and spread the legend of Nazi superiority at home and abroad. By the same means the Germans attempted to break the morale of the Allied armies, and to spread fear and discouragement among the civilian population of all countries who opposed Germany. They used it also in repeated efforts to sow seeds of doubt and distrust among the United Nations. The Allies have likewise made much use of propaganda against both Germany and Japan. The effect of this weapon on the final outcome of the war may never be fully determined, but the extent to which it is used is evidence that it is regarded as a valuable means of attack, and the dissemination of propaganda has become a highly specialized branch of modern warfare.

Because of the uses to which propaganda is put in time of war, there is a tendency to associate it only with evil purposes. On the contrary, it is often used to spread helpful and authentic information, and also as a counter-measure against enemy misrepresentations. Indeed, it is used as often to build public morale and to establish confidence between nations, as for destruction. One authority has defined propaganda as "an organized scheme to establish a doctrine or practice." There is need in time of peace, as well as in war, to keep the people constantly aware of certain facts, and an organized scheme to bring to the attention of the public the need for tolerance, understanding, and good citizenship might be a powerful factor in laying the foundation for permanent peace.

Is Used Not Only For War

There are many means by which propaganda is spread. The press and the radio are the two most obvious outlets, but in Germany Hitler demonstrated the great power of propaganda in the school room. He would doubtless also have used the pulpit for the same purpose had the churches been sympathetic to his doctrines. All these channels have been used in democratic countries to spread the principles upon which national well-being and international security are based, but if the same skill and effort were put into propaganda of this nature, as is put into making it a weapon of war, the effect would doubtless be much greater. More important than this, however, will be the use of propaganda in re-educating the people of Germany and Japan, and in countering the deep impression made by those who have sought to destroy everything related to the democratic way of life. It is clear that propaganda is an important weapon of peace, as well as of war.

Great Need For Re-Education

French Villagers Honor Canadians On Anniversary Of D Day

Villagers of Bernieres sur Mer gathered at sunrise on June 6 in front of their invaded scarred stone houses to pay simple homage to Canadian soldiers who stormed ashore as Liberators on D Day.

With heads bowed, the villagers stood on the beach among the twisted hulls of landing craft still lying half-buried in the white sand, and offered a silent prayer for all who brought them freedom from across the grey channel waters. Theirs must have been the most moving of all D-Day anniversary celebrations in France.

Upsetments as it was, the moment of meditation by humble Normans seemed a more fitting tribute to the memory of our fallen fighting men than all the brass bands and flamboyant speeches.

There was a piano on the beach. Men of a British garrison brought it and one of them accompanied the singing of hymns. Then the crowd walked slowly the 500 yards to the town square, following in the path of three tracked vehicles carrying Canadian soldiers.

The task and triumph of Christianity is to make men and nations true and just and upright in all their dealings, and to bring all law, as well as all conduct, into subjection and conformity to the law of God.—H. W. Beecher.

True prayer is not asking God for love; it is learning to love, and to include all mankind in the affection, Mary Baker Eddy.

The task and triumph of Christianity is to make men and nations true and just and upright in all their dealings, and to bring all law, as well as all conduct, into subjection and conformity to the law of God.—H. J. Van Dyke.

Nothing but Christianity can eventually secure the world's peace.—Lord Bryce.

There must be not a balance of power, but a community of power, not organized rivalries, but an organized common peace.—Woodrow Wilson.

Many Things In Britain Indicate A Return To Normal

The New York Herald Tribune says although many war-time restrictions still remain in effect in England, there are indications of a return to peace-time conditions in several fields. The lights, including that over Big Ben, have gone on again. A firm which had been making parts for airplanes and submarines is now producing bombs. And the Loch Ness monster has been sighted again.

Still At Work

Expert Hun Scientists Captured While Experimenting With New Weapons

A group of German naval experts working on new, secret weapons at a hidden experimental station at Toplitz Lake, high in the Austrian Alps has been captured. The experts are known to have been experimenting with midget submarines among other weapons. Equipment used in experiments was sunk in the 1,000-foot-deep lake.

Price Control And Rationing Information

Q.—I am planning on spending my summer vacation at a nearby resort and will be staying at the hotel. Is it necessary for me to take along my ration book?

A.—It will not be necessary for you to take your ration book with you if you are staying for less than four weeks. If you plan on being in residence at the hotel for four weeks, you will turn over one sugar two preserves and three butter coupons from your ration book.

Q.—When will the next ten extra preserve coupons for canning sugar become valid?

A.—The remaining ten extra preserve coupons to be used for either the purchase of sugar for home canning or commercial preserves will become valid July 1.

Q.—I am a farmer and make my own butter for family use only. Is it necessary for me to hand over my butter coupons to the local ration board?

A.—Every farmer who produces butter for home consumption must detach from his own ration book and from those of members of his household, the same number of valid butter coupons which will be required to collect if he were selling the butter. These coupons are to be forwarded to the local ration board each month.

Q.—Are landlords allowed to ask for six-months rent in advance when renting an apartment?

A.—No, under the rentals regulations landlords are not allowed to ask for more than one month's rent in advance.

Please send your questions or your request for the pamphlet "Consumers' News" or the Blue Book in which you keep track of your ration prices, mentioning the name of this paper to the nearest Wartime Prices and Trade Board office in your province.

A Fitting Tribute

French Villagers Honor Canadians On Anniversary Of D Day

With heads bowed, the villagers stood on the beach among the twisted hulls of landing craft still lying half-buried in the white sand, and offered a silent prayer for all who brought them freedom from across the grey channel waters. Theirs must have been the most moving of all D-Day anniversary celebrations in France.

Upsetments as it was, the moment of meditation by humble Normans seemed a more fitting tribute to the memory of our fallen fighting men than all the brass bands and flamboyant speeches.

There was a piano on the beach. Men of a British garrison brought it and one of them accompanied the singing of hymns. Then the crowd walked slowly the 500 yards to the town square, following in the path of three tracked vehicles carrying Canadian soldiers.

The common lilac is said to have come from Persia in the 16th century.

Garden Without Soil

Grow Vegetables And Flowers By Using Chemicals

Perfect vegetables and flowers are being grown in England without soil. The new process is the work of a well-known British scientist, S. R. Mullard, the radio valve pioneer.

The plants are grown in coarse shingle in a concrete tank and are fed only by a nutrient chemical solution which at intervals is pumped from the bottom upwards by a tiny electric motor.

The process demands little labour since a special cut-out device shuts off the current and stops the pump as soon as the tank is sufficiently full.

Mr. Mullard has made an offer to the Ministry of Labour to train suitable ex-service men in the art of soil-less cultivation so that they can in turn become instructors.

Developed In Britain

Washing Machine Has Many Technical Devices Which Are New

A new revolutionary type of electric washing machine, developed in the United Kingdom, will make press-button laundering a possibility for every housewife. The machine applies to laundering the principle of the ship's screw in the form of an impeller device, which is far more efficient than the older agitator device which it replaces. Other new technical devices incorporated are an exceptionally lightweight speed reducer, a neat form of clutch and an automatic, completely foolproof safety device on the attached wringer. Starting with about 1,000 machines a week, production will be rapidly stepped up to between 100,000 and 150,000 a year. St. Thomas Times-Journal.

SMILE AWHILE

Teacher: "Willie, which would you rather have been Shakespeare or Charlie Chaplin?"

Willie: "Charlie Chaplin, Miss, 'cause he ain't dead!"

"You called the plaintiff a rogue, a swindler and an ass. Why did you not box his ears into the bargain?"

"Well, he is rather hard of hearing."

Matron—I'd like to get a book of Shakespeare or Charlie Chaplin."

Librarian—Something light or heavy?

Matron—Doesn't matter, I have my car outside.

Mistress: "I am sorry you are leaving us, Jane. But, of course, if you are going to better yourself, I—"

Maid: "Oh, no, Madam. I am going to be married."

Gruff Father (to son): "Why don't you get out and play a job? When I was your age I was working for \$5 a week in a shop, and at the end of five years I owned the shop."

Son: "You can't do that nowadays. They have cash registers."

The six-year-old was seated at the breakfast table one morning, when, as usual, eggs were served. The little tot surveyed them for a moment and solemnly said: "I wish to goodness hem would lay something besides eggs."

Jim—"Do you work long hours?"

Joe—"No. Only the regulation length—60 minutes each."

PROMOTED—

Cpl. Patricia Dempsey, Saskatoon,

has recently been promoted to the

rank of sergeant in the Canadian

Women's Army Corps at Regina.

Senior Commander Joan Creek,

of the Auxiliary Territorial Service,

England, having just completed six

months exchange duty in Canada

with the CWACs, has proceeded to

Washington, D.C., to visit U.S. Train-

ing Establishment prior to her return

to England. During her tour in the

U.S. Air Cmdr. Cindi Rosenberg,

the philosopher of the Nazi party, tested

champion of the Nazi doctrine and

famed as the man who conducted the

book purge of 1939. He was taken

into custody by the British at Flens-

burg. His wife wore slacks and brass

knuckles when taken.

PLAY BALL—

First softball game of the season

for CWACs overseas was held in

Hyde Park, London, a few weeks ago

with two teams from London CWAC

companies competing. To make the

opening of the softball season official,

the first ball was thrown by Lt.-Col.

Isabel Cronyn, Toronto, and batted

by Major Mary MacCallum, Toronto.

Among the Western girls on the

teams were Cpl. Grace Steele, Sask.

Sgt. Elizabeth Smith, Leduc,

Alta; CQMS Enid Melhuish, Winni-

peg, and Pte. Alice McLean, Victoria,

B.C., on the winning team from No.

41 Coy. Westerners among the losers

from No. 50 Coy., were Sgt. Mary

Fletcher, Govan, Sask.; Pte. "Ingy"

Langbrister, Churchill, Man.; Pte.

Frances McLean, Winnipeg, and Pte.

Mary Wasio, Komeno, Man.

unit from Alberta to Saskatchewan.

Prior to her enlistment, Pte. William

son was employed as a typist. In

the CWACs, he is employed in the

Quartermaster stores in the same

capacity.

INTERVENTION IN LEVANT WAS NECESSARY IN ORDER TO SUSTAIN WAR EFFORT IN EAST

LONDON. Intervention by British troops in the Levant implied no intention by Britain to supplant France in Syria and the Lebanon, the government said in an official statement.

The statement said: "The intervention of British troops became imperative because local events in Syria seemed likely to disturb the whole middle east and hamper the Allied war effort." Intervention was ordered "with a view to restoration and maintenance of order pending some solution of the situation in the Levant states through diplomatic action."

In an apparent warning to the governments of the two middle east states, the department added: "The Syrian and Lebanese governments are primarily responsible for the maintenance of order within their territories and the world will tend to judge them by the way in which they execute their responsibility."

Fighting broke out between French and Syrian forces in Syria late in May after French reinforcements had been sent to Syria and the Lebanon. France maintained they were sent to the middle east on route to the far east but the two states reacted violently.

Five French civil officials were dismissed from their posts in Lebanon and the government announced all other French appointees would be discharged in accordance with a joint Lebanese-Syrian independence declaration announced at Damascus.

The two nations, disclosing a common policy for winning independence, had agreed on discharge of French officials in their service and called for evacuation of all French troops and surrender of conscripts still under French command. The statement said Syria and Lebanon intended to defend their sovereignty against any nation in the future.

The French appointees dismissed were the chief engineer, fire chief, public works superintendent, quarantine superintendent and advisor of the Beyrouth municipality.

STALLED CAR STORY

SALT LAKE CITY — Mrs. Wanda Carle Provost, Utah, sat terror-stricken as a train approached her stalled car. Crossing Wathwayn R. W. McComb ran to the car, jerked open the door and pulled Mrs. Carle out. A moment later the engine struck the automobile, shoveling it 63 feet and dented one door and a fender. Mrs. Carle climbed in and drove away.

MEAT SHORTAGE

Production Is Decreasing As Demands Are On The Increase

OTTAWA. The re-introduction of meat rationing in Canada was reported as one of the first matters the federal cabinet likely will consider once important post-election problems have been cleared.

Although demands for meat from Allied and liberated countries have been increasing, Canada's bacon exports have dropped steadily and beef exports have dwindled during the last two months.

An agriculture department source said the drop in exports was due to a decrease in hog and beef marketings. Hog marketings were only two-thirds of what they were a year ago. Beef marketings in the first quarter of 1945 were 44 per cent. higher than in the corresponding period of 1944 but the marketings now were decreasing.

The source said he did not know what effect the drop in export would have on the meat contracts Canada has with Britain. Under the contracts, Canada agreed to supply Britain with 450,000,000 pounds of bacon this year and next, and a minimum of 50,000,000 pounds of beef both in 1945 and 1946.

Another phase of the meat supply problem facing the government has arisen recently in some Ontario points. Packers in Toronto and other Ontario points have said they were getting no hogs because the bulk of them were going to Quebec buyers who were paying prices higher than those the Ontario buyers had agreed to pay.

The agricultural department source said exports of canned meat for the United Nations rehabilitation administration have increased, causing a further drain in meat supplies.

All stocks of canned meat were frozen last month when the government announced its agencies would purchase the bulk of available and future stocks for the armed forces and the people of liberated Europe.

ROYAL GARDEN PARTY

LONDON. More than 130 members of the R.C.A.F. were among a train approached her stalled car. Crossing Wathwayn R. W. McComb ran to the car, jerked open the door and pulled Mrs. Carle out. A moment later the engine struck the automobile, shoveling it 63 feet and dented one door and a fender. Mrs. Carle climbed in and drove away.

HAPPY HOMECOMING FOR CANADIAN AIRMEN.—Gathered on the sports deck of the troopship Louis Pasteur to listen to Air Vice-Marshal A. L. Morley, commander-in-chief, Eastern Air Command, bid them welcome to Canada, these airmen are a part of a group of more than 1,000 R.C.A.F. officers and air crews released from Nazi prison camps. From Halifax, where the Pasteur docked, they are being speeded as rapidly as possible to homes throughout the Dominion. Many of the men spent as long as three years in prison camps.

FATE OF AIRCREWS

Inquiry Is Commenced To Learn About Missing Men

LONDON. A research and inquiry service to establish the fate of aircrews reported missing from flights over Europe has been set up by the air ministry in conjunction with dominion authorities, the air ministry announced.

The service already is at work throughout France, Luxembourg and Belgium. Holland will be covered next, then Norway and finally Germany. A similar organization is working in the Balkans.

In view of the large number of cases for attention and the wide areas covered, some time will elapse before a review of all classes can be completed, the statement added.

STILL AT LARGE

PARIS. Marcel Deat, notorious Vichy French collaborator, was sentenced to death by the high court of justice after one of the shortest treason trials on record. Deat still is at large somewhere on the continent and the death sentence was passed in absentia.

GERMAN STEEL PLANT

Fate Of Krupp Industry To Be Decided By Britain

21ST ARMY GROUP HEADQUARTERS, Germany. — A responsible informant said the British cabinet must pass a sentence of "life or death" upon the German Krupp industrial empire.

Whether production will be resumed at any of the Krupp steel plants in the Ruhr and elsewhere in the British occupation zone is a decision that must be made in London and not by field officials, it was said.

The Krupp management recently petitioned the United States 15th army for permission to begin manufacturing German communications equipment for peacetime needs of the allied military government and German civilians. The Americans since have yielded the Ruhr to British occupation. The informant said the petition was a "waste motion."

WOULD CUT TARIFF

WASHINGTON. — The U.S. senate gave President Truman a major foreign policy victory by voting him authority to cut off tariff rates 50 per cent below Jan 1 levels.

DISCOVERER OF PENICILLIN IN CANADA.—Sir Alexander Fleming, the British scientist, who gave the world penicillin, is touring hospitals of this continent to see the various uses to which the drug is being put. He spoke before the Canadian Pharmaceutical Manufacturers' Association at Niagara Falls, Ont., predicting that penicillin will cover an ever wider field.

PLANS HAVE BEEN MADE FOR TRAINING OF CANADIAN DIVISION FOR SERVICE IN PACIFIC AREA

WASHINGTON. Maj.-Gen. Bertram M. Hoffmeister, commander of the Sixth Canadian division, disclosed that his force will start training for the Pacific war early in September at Fort Breckinridge, Ky.

The 38-year-old officer also revealed at a news conference that 28,000 battle hardened Canadian veterans of the war in Europe have already volunteered for service in the Pacific. His force will consist of about 30,000.

The Canadian unit will be under overall American command and will use American equipment except for uniforms. Canada will pay the cost of the equipment.

"I believe that this is the first time in history that two countries have ever co-operated so closely in a cause of this kind," Hoffmeister said.

The Canadian veterans who will fight with the Sixth are now being brought back to Canada from Europe and will be given 30 days furlough before they start training at Breckinridge. The Canadian unit will be largely infantry but will have some tanks, Hoffmeister said.

However, he refused to disclose how long the training period would be or when his unit would be ready for action.

The Royal Canadian Air Force would operate in the Pacific in co-operation with the R.A.F. but that his division would receive its air support from American fliers.

Replacements for the Canadian division will be trained at American replacement centres at a rate fast enough to keep the unit at full strength.

Several score Canadian instructors, who have had experience in the Pa-

cific war will train the replacements.

Hoffmeister commanded the Fifth division in Europe. He said that he was leaving Washington for his home in Vancouver.

"We are most enthusiastic over the task and very eager to get on with it," Hoffmeister said. "But right now I hope to get a spot of leave, it will be the first in six years before I undertake this training program."

"Once it starts, I think we can gain time because of the high percentage of veteran fighters we'll have in the force."

"We are most enthusiastic over the task and very eager to get on with it," Hoffmeister said. "But right now I hope to get a spot of leave, it will be the first in six years before I undertake this training program."
